A Message To EASA Customers

In order to comply with EASA requirements, it is necessary for all customers to provide Quality Aircraft Accessories with the necessary Airworthiness Directives and Service Bulletins that apply to any component or accessory to be serviced/repaired/overhauled.

We have been informed that a number of EASA member authorities issue their own Airworthiness Directives or accept FAA Airworthiness Directives and issue additional directives.

Quality Aircraft Accessories shall determine from the work order or purchase order accompanying component or accessory what Airworthiness Directive(s) are required to be performed. If there are not customer specific requirements listed on your work order or purchase order, Quality Aircraft Accessories will comply with the applicable FAA Airworthiness Directives.

Please confirm that you understand and agree with the statement above by providing your signature below and fax to Quality Aircraft Accessories at (918) 835-2804 or email to sales@qaa.com. A copy of this document will remain on file with Quality Aircraft Accessories in accordance with EASA requirements.
